## **Foreword**

The Social Welfare Department (SWD) has maintained the Central Information System on Spouse/Cohabitant Battering Cases and Sexual Violence Cases (the “Central Information System” or CISSCBSV) to collect essential statistical information on spouse/cohabitant battering (SCB) cases and sexual violence (SV) cases handled by different departments and organisations. At present, the main reporting agencies include the service units operated by SWD and Non-governmental Organisations (NGOs), the Hospital Authority (HA) and Hong Kong Police Force (HKPF).

The setting up of CISSCBSV is to gauge the trend and to understand the common characteristics of the problems in Hong Kong, so to facilitate the study, planning and development of services which prevent domestic violence and sexual violence.

Since 2005, SWD has published the accumulative selected statistical data, including the number of cases by type of violence, gender of victim, victim’s habitual residential district, district where incident occurred, relationship between perpetrator and victim as well as the ethnicities of victim, and uploaded on SWD’s website on quarterly basis or yearly basis. To provide more information and demographic data on these newly reported SCB and SV cases to the public, SWD has started to publish the Statistical Report yearly since 2020.

This Statistical Report 2021 will provide both the general information of the newly reported SCB and SV cases in the whole year as well as the comparison of newly reported cases from 2017 to 2021. General descriptions on the characteristics of the victims and the perpetrators are also presented.

## 前言

社會福利署（社署）管理的「虐待配偶／同居情侶個案及性暴力個案中央資料系統」（「中央資料系統」）搜集經由不同部門和機構處理的虐待配偶／同居情侶及性暴力個案的主要統計數據。現時，主要呈報單位包括社署及非政府機構的服務單位、醫院管理局及香港警務處。

設立「中央資料系統」的目的是為了評估整體問題在香港的趨勢，並了解虐待配偶／同居情侶及性暴力問題之特徵，以促進預防家庭暴力及性暴力服務的規劃及發展。

社署自 2005 年起按季度或年度將累積及指定的數據，包括暴力的種類、受害人的性別、受害人慣常居住的地區、事發的地區、施虐者／性侵犯者與受害人的關係及受害人的種族等，上載至社署網頁。為向公眾提供更多資料及統計數據，社署由 2020 年開始刊登年度統計報告。

本 2021 年的統計報告會提供新呈報的虐待配偶／同居情侶個案及性暴力個案於全年的一般資料，以及比較 2017 至 2021 年度的有關數據，並概述個案的基本資料和受害人及施虐者／性侵犯者的特點。
